The exhibition was and is in no sense official, but represented Mrs. Whitney's personal belief in American artists and her conviction that their work should be better known abroad. The pictures chosen were shown at the International Exhibition at Venice from May until November, 1920, and during April, 1921, they were shown in London at the Grafton Galleries. Later they were shown at the Georges Petit Galleries in Paris, whence they were shipped back to America early in August. They were received with great interest wherever shown, and it is Mrs. Whitney's belief that they accomplished much in winning friends abroad for American art. "I never have done anything which I consider more worth while," is what she herself says of the whole undertaking.
